

RESULTS-BASED
management focused reforms on Ukraine's priority needs in view of European and NATO integration

STRATEGIC-LEVEL
institutional complement to Canada's Operation UNIFIER supporting Ukrainian armed forces

GENDER-RESPONSIVE
approach to security and defence sector reforms.

PROTECT2

Promoting Reform Objectives Through Technical Expertise and Capacity Transfer Project

PROTECT2 works with the Government of Ukraine, primarily the Ministry of Defence, to build the capacity of institutions and agencies across the defence sector to meet internationally accepted standards of governance, gender equality, performance and accountability.

Drawing on highly specialised experts in Ukraine and internationally, and in lockstep with institutional partners, concrete progress has been achieved on advancing democratic governance in the defence sector; advancing gender equality; and improving planning and resource management.

In partnership with
Canada

Alinea is an international development consultancy whose name means "new ideas," which is how our team of in-house technical experts strategizes, designs and delivers smart solutions to meet the world's changing challenges.
